## **Learning Outcomes**

Upon completion of this course, students will be able to

describe the purpose and role of reward and compensation systems.

identify problems caused by an ineffective compensation system.

discover how structural and strategic variables are related to compensation.

identify a compensation strategy that best fits a given organization.

design effective performance pay plans and benefit systems.

use market data to calibrate a compensation structure.

design effective processes for compensation system implementation & evaluation.

## **Course Objectives**

This course will cover the following:

This course integrates an online simulation as a major team project. The simulation provides students with an opportunity to enrich their understanding of the compensation process by applying course concepts to a simulated organization. Using the simulation, students will design a compensation system from beginning (assessing organizational strategy) to end (describing the implementation and evaluation of the system).

See the Course Schedule for weekly details regarding content and deliverables.
